

More specifically, claims 5 and 9 have been amended to remove multiple claim dependencies in a manner consistent with U.S. prosecution. Claims 10 and 11 have been amended to convert the Swiss-type use claims to the U.S. method of treatment format. Applicants submit that such amendments do not change the scope of the subject matter claimed in claims 5 and 9-11, but merely puts it in an alternative format. All claim amendments made merely address formalities in the claim format and do not change the scope of the claims. Such claim amendments are therefore not related to the patentability of the subject matter claimed.
